SL-SFA Stratlock™ Female Side Mount – for timber

INDUSTRY FIT:

STRATLOCK SL RANGE

SPECIFICATIONS:

The SL-SFA provides rapid installation of heavy panels to timber, steel or aluminium framework. Designed specifically for contract interior fitout applications to reduce onsite installation time. Female installs onto side of framework with with 2 x #8 panhead screws (20mm) in timber frames, and #8 tek screws (20mm) into steel or aluminium framework. Used with the SL-M18 male clip, the new solid internal load chassis creates 4mm supported movement of the panel in any direction at the first engagement before locking into place with an 18kg pull out load. The distance between the panel and substrate when installed is 10.5mm at the first click, and 5mm when pressed into final position. Patent Pending.

SL-SFA 18kg

NEW PRODUCT

USE WITH:
SL-M18

BENEFITS

- Strongest available fixing from Fastmount
- Side mount with rapid screw fixing
- Supported movement of the panel 4mm in any direction before locking into final position.
- No special tools required for installation
- Acoustic isolation between panel and frame
- 18kg pull out load with SL-M18
- 5mm clearance between panel and frame

APPLICATIONS

- Commercial interior fitout
- Residential interior fitout
- Architectural applications
- Mounting heavy wall panels

MATERIAL:
White acetyl, rubber o-ring
