

VR22 HOG RINGS from Rapid

Rapid's high quality hog rings are an effective solution when fastening thicker chain-link mesh fencing on the tensile wire.

The VR22 hog rings are suitable for use with closing diameter from 5 to 11 mm, mainly for higher protection of residential, professional, public and sports facilities.

They are galvanized and also available in green, black or grey plastic coated finish, for discreet fixing of coloured fencing.

Little trick : you can use hog rings for plastic bags closing (trash bags)

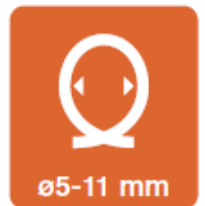

Features:

- Work with fence pliers FP222 & FP20
- Hog ring closing diameter from 5mm to 11mm
- Corrosion resistance for longer lasting life
- Packed in blister of 215 or 1100 or cardboard box of 1600.

Specifications:

- Finish Galvanized or Green PET coating
- Hardness High Performance
- Strip of staples 50 staples
